

Educational Summit & Gala

Help Our Local Middle School Students SOAR to Higher Academic Success!

100% of all money raised is reserved for the implementation of beyond-the-school-day LEARNING LABS in Snohomish County. This program celebrates academic success for all & gives additional support to academically needy children. This includes a strong parent involvement program, continuous monitoring of academic success with data-based decision making; bi-monthly rewarding students for earning A, B, & C's; plus providing a safe beyond-the-school LEARNING LABS day until 6:00pm. This provides ample academic support, when needed. The goal is to have ALL students' "high school ready" prior to entering 9th grade...earning A, B, and C's & passing the State SBA test. Join us to make higher academic success a reality!
